DOOR CONTACT CABLE BRIDGING ON KBL-DCN-2 FOR FULL AUTOMATIC DOORS

1. Bridging support has two holes (Fig.1)
2. Insert two cables into the holes of the bridging support (Fig.2)
3. Use pliers to tighten the cables after the conductive parts of cables are fitted into the bridging support (Fig. 3)
4. Be sure that all cables are fixed completely by pulling the cables (Fig. 4)
